

TYPICAL BOLT-ON SPARE TIRE MOUNT PLACEMENT.

NOTE:

THE SPARE TIRE MOUNT SHOULD BE POSITIONED WITH THE BOAT ON THE TRAILER TO ASSURE THAT THE BOAT WILL CLEAR THE SPARE TIRE ON THE LAUNCH RAMP. ALLOW ADEQUATE CLEARANCE FOR THE TRAILER TO BE BACKED AROUND CORNERS WITHOUT THE TIRE STRIKING THE TOW VEHICLE.

THE DIMENSIONS LISTED BELOW ARE FOR REFERENCE ONLY. SOME PACKAGES MAY REQUIRE ADJUSTMENT TO ALLOW EASY ACCESS TO THE TIRE OR TO PREVENT THE TIRE FROM STRIKING THE BOAT DURING LOADING AND LAUNCHING.

EAGLE[®]
TRAILER
